## FASD Clinic Key Worker Contract

The Northwest Central FASD Network is looking to contract an individual to provide post-clinic supports to those who have been assessed through the Network's mobile FASD clinic.

Using a case consultation model, the Key Worker will facilitate coordinated support for the client, their caregivers and service providers. Training, resource sharing and case conferencing will be used to facilitate sustained, coordinated support that rests in the community where the client and their caregivers reside.

If you are organized, respectfully assertive, and self-directed with a passion to work collaboratively for those who are FASD affected, please submitting your resume to:

Teresa O'Riordan, Executive Director at [toriordan@fasdnetworknwc.ca](mailto:toriordan@fasdnetworknwc.ca)  
no later than 4:30 PM Friday, February 29, 2012.

Previous FASD knowledge and experience are highly valued. A reliable vehicle and comfort with driving is essential.

We thank everyone for their interest. Only those short listed for an interview will be contacted.
